

Ideation Phase

Brainstorm & Idea Prioritization

Date	13 July 2026
Team ID	
Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	4 Marks

Step 1: Selected Problem Statement

How might we help home buyers and real estate analysts understand what drives housing sale prices, so they can make confident, well-informed decisions?

Step 2: Brainstorm, Idea Listing and Grouping

Step 3: Idea Prioritization

Ideas were placed on an importance-vs-feasibility grid. The four ideas rated high on both were carried into the four dashboard sheets; the location map was deferred due to time constraints.

Idea Prioritization Grid — Importance vs. Feasibility

Idea	Importance	Feasibility
Text table: Count / Avg Sale Price / Area from Basement	High	High — built (Sheet 1)
Histogram: Total Sales by Years Since Renovation	High	High — built (Sheet 2)
Pie chart: House Age by Renovation Status	High	High — built (Sheet 3)
Bar chart: House Age by Bathrooms/Bedrooms/Floors	High	High — built (Sheet 4)
Map view: Avg Sale Price by Zipcode	Medium	Low — deferred, time constraints
